## The AX Gallery

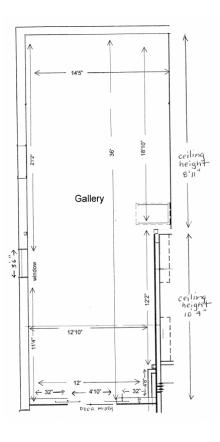

**AX**, the Arts and Culture Centre of Sussex, is a community arts and culture centre based in a historic building in the heart of Sussex, New Brunswick, Canada. The centre features a newly-renovated professional gallery space, classroom, ceramics studio, artists' studios for rent, a patio, and a licensed restaurant.

Open throughout the year, **AX** presents approximately 6-8 exhibitions of contemporary art and fine craft by artists near and far. We seek a balance of established and emerging artists, and we also host literary events, artist talks, intimate concerts, fine art and craft classes, and more.

Floor plans, room measurements, and layouts are intended as a guide – artists are encouraged to come into the gallery to see the space, if possible.

## **Main Gallery**

The main floor gallery is secure, with lockable doors and a security system, and visitors must pass through AX's reception area to access the gallery.
